PRODUCT DESCRIPTION

The Waismed developed advanced Intraosseous (IO) devices, designed for a rapid and accurate access to the bloodstream wherever traditional intravascular access is not possible for medical treatment.
Based on an innovative, patented injection system, Waismed's IO devices provide rapid, safe and easy intravascular access through the bone marrow.
Connection to standard infusion equipment is simple for administering fluids, medications and blood products.
This product is available through selected distributors of AERO HEALTHCARE only.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
