Is Dangerous Good	No

PRODUCT DESCRIPTION

AeroAid Antiseptic Cream provides targeted, soothing care for everyday skin upsets in a compact, kit-friendly format. The smooth cream spreads easily across small areas of skin, supporting hygienic first response for families, workplaces and travellers.

Formulated with Melaleuca Oil 47.5 mg/g and stabilised with Phenoxyethanol and hydroxybenzoates, the cream delivers antiseptic action for minor cuts and abrasions while also calming irritation from minor burns, sunburn, insect bites, stings and itches. The single-use sachet format helps reduce cross-contamination and keeps contents fresh until needed.

Clear labelling and consistent presentation make it simple to identify in busy first aid settings. The lightweight pack is easy to distribute across first aid kits, outdoor packs, sports bags and glove boxes so a quick application is always close at hand.

AeroAid Antiseptic Cream integrates easily into first aid kits at home and in the workplace including compliance ranges and refill programs, helping maintain standardised contents across different kit formats..

- **Everyday relief:** supports care of minor cuts and abrasions.
- **Multi-purpose:** suitable for minor burns, sunburn, bites, stings and itches.
- **Trusted active ingredients:** contains Melaleuca Oil 47.5 mg/g with preservatives for stability.

- **Hygienic single-use:** sealed sachet helps minimise contamination.
- **Ready for kits:** compact, lightweight and clearly identified.

The 25 g tube provides a practical amount for repeated spot applications while remaining compact for first aid kits and travel bags.

Single 25 g tube—ideal for individual kits and straightforward replenishment, providing enough cream for multiple small applications without committing to bulk packaging.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
