PRODUCT DESCRIPTION

AeroBand Non-Woven Triangular Bandage is a versatile first aid essential designed for rapid limb support and simple immobilisation. The soft, non-woven construction sits comfortably against skin and is easy to position for temporary stabilisation of an injured wrist, arm, shoulder, chest or leg. At 110 cm x 110 cm x 155 cm, the generous cut provides broad coverage and multiple folding options to suit different techniques and body sizes in workplaces, schools, vehicles and community settings.

The lightweight fabric is size adjustable and easy to tie, allowing quick creation of a supportive sling or narrow bandage. Its disposable,

single-use format supports good hygiene practices and straightforward restocking after use.

Whether used to fashion an arm sling, secure a splint, hold bulky dressings in place or provide gentle chest support, this non-woven triangular bandage gives first responders and bystanders a dependable, easy-to-teach solution. Its plain, white material helps with visual checks of soiling or moisture, while the broad surface area improves comfort and stability during short-term care and transport.

- **Soft non-woven fabric:** comfortable against skin and easy to fold
- **Large 110 x 110 x 155 cm size:** adaptable coverage for slings and bandaging
- **Size adjustable:** ties and folds to suit adults or children
- **Single use disposable:** supports hygiene and quick replenishment
- **Versatile application:** slings, splint securing, and dressing support

Supplied as a **bag of 10** non-woven triangular bandages sized **96 cm x 96 cm x 137 cm**, ideal for efficient kit refills across workplaces, fleets and training rooms. The multi-pack format simplifies ordering and keeps first aid stations ready.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
