PRODUCT DESCRIPTION

Hydrates the Burn Site

This AeroBurn Burn Gel Dressing is enriched with a cooling gel that hydrates the burn site giving relief from pain, reducing inflammation and encouraging faster healing for the treatment of burns, scalds, and sunburn. This specialist dressing uses our SupaSorb Non-Woven Carrier, that effectively manages heat transfer, particularly for burn wounds.

Non-adherent, Non-toxic

AeroBurn Burn Gel Dressing is non adherent and non-toxic, ensuring minimal irritation and maximum relief for the wound. The dressing is classified as sterile and hypoallergenic to ensure the burn wound is clean and protected against infection.

AEROBURN BURN GEL DRESSING 20 X 20CM

ABD20

Easy to Use

AeroBurn Burn Gel Dressing offers more effective relief for burn wounds than traditional methods, as well as being more cost effective. Our burn dressing can simply remain in situ for up to two hours, providing relief with minimal attention, redressing, or cooling with running water.

Range of Sizes

Our range of AeroBurn Burn Gel Dressings are available in various other sizes to treat different sized burn injuries.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
