PRODUCT DESCRIPTION

High-quality Cotton Design

Our AeroCrepe Bandage offers a premium first aid solution. It's elastic properties allows users greater comfort and manoeuvrability around joints and body contours.

Versatile Support

Our AeroCrepe Bandage is ideally suited for use with immobilisation or compression techniques, can serve to compress and add pressure to the area around an open wound to help stem blood flow, whilst the casualty awaits further treatment. This elastic bandage is suitable for keeping joints still during elevation whilst offering comfortable support.

ACE100

Protective Wound Dressing

This product is classed as non-sterile but can be used alongside sterile products to secure smaller pads. It is recommended for light support and is ideal for soft tissue injuries or gentle coverage for small wounds that are healing.

Multipack Convenience

Comes as a pack of 12 Elastic Cotton Crepe Bandages with each pack includes a pair of securing metal grip clips.

Comprehensive Size Ranges for All Needs

Each AeroCrepe cotton bandage roll comes in a length of 4 metres, with a variety of widths to suit all wounds and injuries.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
