## PRODUCT DESCRIPTION

AeroCrepe elastic crepe bandages provide dependable support, retention and light compression for everyday first aid and clinical

settings. Built from cotton crepe with elastic yarns, the bandage stretches comfortably to conform around limbs and joints while allowing normal movement. This balance of elasticity, softness and breathability makes it suitable for holding wound dressings in place, providing localised pressure, or giving supportive wrap to minor strains and swelling during short-term recovery.

The construction is non-sterile and latex free, supporting broad workplace and home use. Fray-resistant edges help maintain integrity during application and wear, while a slip-resistant texture assists with secure layering as the bandage is wrapped.

Designed for reliability in first aid kits, workplace cabinets and healthcare facilities, AeroCrepe presents a professional finish that is easy to apply and comfortable for the wearer. The material's air-permeable structure helps skin remain comfortable over extended periods, and the elastic return gives consistent compression without excessive bulk. From routine dressing retention to light compression techniques, the bandage helps users respond quickly and confidently to common injuries.

- **Elastic comfort and support:** stretches to conform and provide controlled, local pressure
- **Breathable cotton crepe:** helps keep skin comfortable during wear
- **Fray-resistant edges:** maintains bandage integrity during application
- **Slip-resistant texture:** assists in secure wrapping and layer stability
- **Latex free and non-sterile:** suitable for general first aid use
- **Clear storage guidance:** symbols indicate keep dry, avoid sunlight, and temperature limits

The **2.5 cm by 4 m size** delivers narrow, easily controlled coverage that is ideal for wrists, hands and smaller limbs. Its slim width supports precise tension adjustment and low-bulk wrapping for targeted support and dressing retention.

Supplied as a **5 cm width** elastic crepe bandage with a **4 m stretched length**, this option provides focused coverage for wrists, hands and lower limbs, combining breathable, latex-free construction with light compression and secure dressing retention for everyday use.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
