PRODUCT DESCRIPTION

AeroFilm Plus Waterproof Island Dressing provides transparent, waterproof protection with a soft absorbent island pad for comfortable post-operative and delicate wound coverage. The clear film acts as a bacterial barrier while allowing moisture vapour to escape, helping the site stay protected in daily life and letting users visually check the wound without removing the dressing.

The absorbent SupaSorb pad draws light exudate away from the skin and the low-adherent contact layer minimises trauma at change time. This combination supports a cleaner wound environment and gentler, low-pain removal—ideal for cuts, grazes, sutures and small procedural sites.

SupaBond hypoallergenic adhesive delivers reliable hold over body contours and joints, resisting edge lift from friction, sweat and movement. The film is ultra-thin for a discreet, conformable fit that moves with the body, maintaining a secure seal without bulk.

AEROFILM PLUS WATERPROOF ISLAND DRESSING 15 X 20CM BOX/3

AFPW0153

A unique frame delivery system simplifies accurate placement. The frame helps apply the dressing crease-free and ensures firm edge contact for a consistent seal in clinical settings and at home.

- Waterproof transparency: clear film shields the site while enabling visual checks.
- Comfort absorbency: SupaSorb pad manages exudate to help reduce maceration.
- **Hypoallergenic hold:** SupaBond adhesive provides strong, skin-friendly adhesion.
- Low-adherent contact: minimises sticking for gentler dressing changes.
- Easy, precise placement: frame delivery supports crease-free application.
