PRODUCT DESCRIPTION

The AEROGLOVE Nitrile Powder-Free Gloves are a high-quality range of examination gloves designed for comfort, flexibility, and protection. These gloves are ambidextrous and anatomically shaped, providing a snug fit for both hands. The powder-free design ensures optimum wet and dry grip, reducing the risk of accidents and contamination. The blue colour of the gloves makes it easy to detect splits or damage, ensuring that you can maintain a high level of hygiene and safety.

The gloves are made from nitrile, a durable and puncture-resistant material that provides excellent flexibility and strength. This makes them ideal for use in a variety of settings, including medical, dental, and first aid.

The AEROGLOVE Nitrile Powder-Free Gloves are available in a range of sizes, ensuring that you can find the perfect fit for your needs. Whether you're a healthcare professional, a first aid responder, or simply looking for a reliable pair of gloves for personal use, these gloves are an excellent choice.

Key Features:

- Ambidextrous and anatomically shaped for comfort
- Powder-free and optimum wet and dry grip
- Excellent flexibility and puncture strength
- Blue colour for easy detection of splits

Benefits:
