PRODUCT DESCRIPTION

The AEROLearn Placebo Inhaler from Aero Healthcare is a non-medicated inhaler designed to provide a medically accurate replication for product training and learning scenarios.

Designed to provide asthma sufferers and other inhaler users with a training device to learn how to accurately use the inhaler before trying with a medicated device.

For training purposes only, these products are proven to enhance simulation-based training and improve student retention. To use on training manikins only.

o Perfect for clinical training for patients new to inhalers.

AEROLEARN ASTHMA PLACEBO INHALER
