

ADDITIONAL INFORMATION

Weight	0.01 kg
Dimensions	1.5 × 4.8 × 9.2 cm
Carton Qty	480
Pricing Unit	Box/10
Size	10mm x 45mm
Min Order Qty	12
ARTG ID	159198
GMDN Code	44990
Medical Device Class	Class 1s
UNSPSC Code	42311546
Tax Schedule	Taxable
Item Length	4.5
Item Width	1
Item Measurement Unit	cm
Is Medical Device	Yes
Is Serialized Item	No
Is Dangerous Good	No
Shelf Life (Months)	36

PRODUCT DESCRIPTION

AEROPLAST Butterfly Wound Closures are designed to approximate skin edges on small cuts and lacerations without sutures, helping protect the site while daily activity continues. The slim, butterfly-shaped profile is low-bulk and easy to position, enabling controlled tension across the wound line for a neat, consistent approximation. These closures are suited to common fingertip and hand injuries encountered in workplaces, schools, hospitality, sport and home settings where fast, tidy support is preferred.

SupaBond adhesive provides dependable holding power to resist lift and edge curl through movement, light perspiration and routine tasks. A non-stick centre section spans the wound line to avoid adherence to delicate tissue, supporting gentler removal and a cleaner presentation at changeover. The closures are sterile and single-use for hygiene assurance and are latex-free to reduce the risk of sensitivity—making them a considerate choice for mixed-use environments and first aid kits that serve many users.

The balanced combination of secure adhesion, soft removal and straightforward application helps users gain confidence in first response situations. Each strip is sized for practical coverage on hands and fingers, with a low-profile finish that sits comfortably under gloves or additional protection if needed. Keep these on hand anywhere minor cuts can occur to restore alignment quickly, support the wound line and get back to the task at hand.

- **Strong adhesive hold:** helps keep wound edges approximated during movement.
- **Non-stick centre:** minimises trauma on removal for a cleaner dressing change.
- **Sterile, single-use:** supports hygienic first response in shared settings.
- **Latex-free:** suitable for sensitive skin and diverse workplaces.
- **Easy butterfly placement:** quick to position for consistent tension and comfort.

Sized at **45 x 10 mm** and supplied in a **box of 10**, these butterfly closures provide neat support for small cuts on hands and fingers. The compact pack suits household kits, workplace cabinets and travel cases for quick first response.
