

ADDITIONAL INFORMATION

Weight	0.02 kg
Dimensions	22 × 10.5 × 12 cm
Carton Qty	500
Pricing Unit	Env/20
Size	Assorted
Min Order Qty	20
ARTG ID	159198
GMDN Code	44990
Medical Device Class	Class 1s
UNSPSC Code	42311546
Tax Schedule	Taxable
Is Medical Device	Yes
Is Serialized Item	No
Is Dangerous Good	No
Shelf Life (Months)	60

PRODUCT DESCRIPTION

The AEROPLAST Plastic range of adhesive plasters and bandages is designed to offer superior wound care solutions for everyday needs. These washproof and hypoallergenic bandages are crafted to provide comfort and protection for minor wounds, making them ideal for general applications. The innovative SupaSorb Wound Pad technology ensures excellent wound management by efficiently absorbing exudates, thereby reducing the frequency of dressing changes. This feature keeps the wound clean and comfortable, while the non-adherent film minimizes pain and trauma during dressing changes.

Equipped with the exclusive SupaBond adhesive, these bandages guarantee secure and lasting adhesion, preventing lift-up or edge curling, even in challenging conditions. The AEROPLAST Plastic bandages are made from materials that are both air permeable and conforming, allowing them to bend, stretch, and adapt to various shapes and forms. This ensures that the skin and wound can breathe

as they heal, promoting a more comfortable recovery process.

These bandages are latex-free, making them suitable for individuals with latex sensitivities. Manufactured to the highest standards, AEROPLAST Plastic bandages meet the needs of both medical professionals and everyday users. Whether you're a healthcare provider, a first aid trainer, or a family looking for reliable wound care solutions, the AEROPLAST Plastic range offers the protection and comfort you need. Trust in the quality and performance of these bandages to keep wounds protected and promote healing.

The **Standard Strip 7.2 cm x 1.9 cm size** offers reliable coverage for everyday cuts and grazes on hands, fingers, and other linear wounds. Its slim profile fits comfortably along the skin while the conforming plastic backing and strong SupaBond adhesive help it stay in place during daily movement.

Box **of 20** sterile, individually wrapped dressings in assorted shapes, offering a practical refill for compact first aid kits.

Contraindications and Precautions

Change dressing daily or more often according to the condition of the wound. As with all adhesive products apply and remove carefully from sensitive or fragile skin. Seek medical advice immediately for all serious wounds and burns. If redness or discomfort occurs, discontinue use and consult a physician.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
