**Is Medical Device** Yes

**Is Serialized Item** No

**Is Dangerous Good** No

Shelf Life (Months) 60

#### **PRODUCT DESCRIPTION**

The AEROPLAST Plastic range of adhesive plasters and bandages is designed to offer superior wound care solutions for everyday needs. These washproof and hypoallergenic bandages are crafted to provide comfort and protection for minor wounds, making them ideal for general applications. The innovative SupaSorb Wound Pad technology ensures excellent wound management by efficiently absorbing exudates, thereby reducing the frequency of dressing changes. This feature keeps the wound clean and comfortable, while the non-adherent film minimizes pain and trauma during dressing changes.

Equipped with the exclusive SupaBond adhesive, these bandages guarantee secure and lasting adhesion, preventing lift-up or edge curling, even in challenging conditions. The AEROPLAST Plastic bandages are made from materials that are both air permeable and conforming, allowing them to bend, stretch, and adapt to various shapes and forms. This ensures that the skin and wound can breathe as they heal, promoting a more comfortable recovery process.

These bandages are latex-free, making them suitable for individuals with latex sensitivities. Manufactured to the highest standards, AEROPLAST Plastic bandages meet the needs of both medical professionals and everyday users. Whether you're a healthcare provider, a first aid trainer, or a family looking for reliable wound care solutions, the AEROPLAST Plastic range offers the protection and comfort you need. Trust in the quality and performance of these bandages to keep wounds protected and promote healing.

# AEROPLAST PLASTIC ASSORTED DRESSINGS FNV/20

**AP104** 

The AEROPLAST Plastic Assorted Dressings provide a versatile wound care solution for various minor injuries. These dressings are designed to offer comfort and protection, making them ideal for general applications. With the SupaSorb Wound Pad technology, these dressings ensure excellent absorption, reducing the need for frequent changes and keeping wounds clean and comfortable. The SupaBond adhesive guarantees secure adhesion, preventing lift-up or edge curling, even in challenging conditions. Perfect for individuals seeking reliable and efficient wound care solutions.

The AEROPLAST Plastic Assorted Dressings Env/20 provides a convenient pack size for those in need of efficient wound care. With 20 dressings in assorted sizes, this pack offers flexibility and adaptability for various minor injuries. The SupaSorb Wound Pad technology ensures superior absorption, while the SupaBond adhesive provides secure adhesion, making it a reliable choice for quick and effective wound management.

#### Contraindications and Precautions

Change dressing daily or more often according to the condition of the wound. As with all adhesive products apply and remove carefully from sensitive or fragile skin. Seek medical advice immediately for all serious wounds and burns. If redness or discomfort occurs, discontinue use and consult a physician.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
