

ADDITIONAL INFORMATION

Weight	0.04 kg
Dimensions	5.5 × 5.5 × 7.6 cm
Carton Qty	60
Pricing Unit	Box/100
Size	2.25cm diameter
Min Order Qty	12
ARTG ID	159198
GMDN Code	44990
Medical Device Class	Class 1s
UNSPSC Code	42311546
Tax Schedule	Taxable
Item Width	2.25
Item Measurement Unit	cm
Is Medical Device	Yes
Is Serialized Item	No
Is Dangerous Good	No
Shelf Life (Months)	60
Warranty Period (Months)	12

PRODUCT DESCRIPTION

The AEROPLAST Plastic range of adhesive plasters and bandages is designed to offer superior wound care solutions for everyday needs. These washproof and hypoallergenic bandages are crafted to provide comfort and protection for minor wounds, making them ideal for general applications. The innovative SupaSorb Wound Pad technology ensures excellent wound management by efficiently

absorbing exudates, thereby reducing the frequency of dressing changes. This feature keeps the wound clean and comfortable, while the non-adherent film minimizes pain and trauma during dressing changes.

Equipped with the exclusive SupaBond adhesive, these bandages guarantee secure and lasting adhesion, preventing lift-up or edge curling, even in challenging conditions. The AEROPLAST Plastic bandages are made from materials that are both air permeable and conforming, allowing them to bend, stretch, and adapt to various shapes and forms. This ensures that the skin and wound can breathe as they heal, promoting a more comfortable recovery process.

These bandages are latex-free, making them suitable for individuals with latex sensitivities. Manufactured to the highest standards, AEROPLAST Plastic bandages meet the needs of both medical professionals and everyday users. Whether you're a healthcare provider, a first aid trainer, or a family looking for reliable wound care solutions, the AEROPLAST Plastic range offers the protection and comfort you need. Trust in the quality and performance of these bandages to keep wounds protected and promote healing.

The **Spot Dressings 2.25 x 2.25 cm** configuration provides focused coverage for small punctures, injections, and pinpoint cuts. The round shape centres the SupaSorb wound pad directly over the site, while the washproof, hypoallergenic plastic backing and SupaBond adhesive deliver strong, skin-compatible adhesion that conforms to curved areas such as fingers, hands, and other hard-to-cover spots.

Configured with a **Quantity – 100 bandages per box**, this option provides a practical stock level for workplaces, clinics and family first aid kits, helping to reduce restocking frequency while keeping a ready supply of individually wrapped, sterile plastic bandages on hand for minor wounds.

Contraindications and Precautions

Change dressing daily or more often according to the condition of the wound. As with all adhesive products apply and remove carefully from sensitive or fragile skin. Seek medical advice immediately for all serious wounds and burns. If redness or discomfort occurs, discontinue use and consult a physician.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.

Spot Dressings
