

ADDITIONAL INFORMATION

Weight	0.04167 kg
Dimensions	3.3 × 8 × 10 cm
Carton Qty	72
Pricing Unit	Box/50
Size	7.2cm x 1.9cm
Min Order Qty	12
ARTG ID	159198
GMDN Code	44990
Medical Device Class	Class 1s
UNSPSC Code	42311546
Tax Schedule	Taxable
Item Length	7.2
Item Width	1.9
Item Measurement Unit	cm
Is Medical Device	Yes
Is Serialized Item	No
Is Dangerous Good	No
Shelf Life (Months)	60
Warranty Period (Months)	12

PRODUCT DESCRIPTION

The AEROPLAST Plastic range of adhesive plasters and bandages is designed to offer superior wound care solutions for everyday

needs. These washproof and hypoallergenic bandages are crafted to provide comfort and protection for minor wounds, making them ideal for general applications. The innovative SupaSorb Wound Pad technology ensures excellent wound management by efficiently absorbing exudates, thereby reducing the frequency of dressing changes. This feature keeps the wound clean and comfortable, while the non-adherent film minimizes pain and trauma during dressing changes.

Equipped with the exclusive SupaBond adhesive, these bandages guarantee secure and lasting adhesion, preventing lift-up or edge curling, even in challenging conditions. The AEROPLAST Plastic bandages are made from materials that are both air permeable and conforming, allowing them to bend, stretch, and adapt to various shapes and forms. This ensures that the skin and wound can breathe as they heal, promoting a more comfortable recovery process.

These bandages are latex-free, making them suitable for individuals with latex sensitivities. Manufactured to the highest standards, AEROPLAST Plastic bandages meet the needs of both medical professionals and everyday users. Whether you're a healthcare provider, a first aid trainer, or a family looking for reliable wound care solutions, the AEROPLAST Plastic range offers the protection and comfort you need. Trust in the quality and performance of these bandages to keep wounds protected and promote healing.

The **Standard Strip 7.2 x 1.9 cm** configuration offers a slim profile that suits most everyday cuts and grazes on fingers, hands, and arms. This size combines strong SupaBond adhesion, a SupaSorb high absorption pad, and a conforming, washproof plastic backing to deliver secure, breathable coverage for routine first aid in home, workplace, and clinical settings.

This option provides a **Quantity: 50 bandages per box**, ideal for home kits, small workplaces, and on-the-go supplies. The 50-count format offers ample coverage for routine first aid while keeping the pack compact and easy to store in cupboards, drawers, or first aid cabinets.

Contraindications and Precautions

Change dressing daily or more often according to the condition of the wound. As with all adhesive products apply and remove carefully from sensitive or fragile skin. Seek medical advice immediately for all serious wounds and burns. If redness or discomfort occurs, discontinue use and consult a physician.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
