

ADDITIONAL INFORMATION

Weight	0.038 kg
Dimensions	11 × 2 × 15 cm
Carton Qty	288
Pricing Unit	Bag/1
Size	7.5cm x 1M
Min Order Qty	12
ARTG ID	159198
GMDN Code	44990
Medical Device Class	Class 1s
UNSPSC Code	42311546
Tax Schedule	Taxable
Item Length	100
Item Width	7.5
Item Measurement Unit	cm
Is Medical Device	Yes
Is Serialized Item	No
Is Dangerous Good	No
Shelf Life (Months)	60

PRODUCT DESCRIPTION

AEROPLAST Premium Fabric adhesive bandages provide durable, long-wearing protection for minor cuts, grazes and abrasions in workplaces, education, hospitality and home first aid. A premium-weight woven backing conforms to fingers, knuckles and joints while allowing airflow to the skin for comfort. SupaBond extra-strong adhesive delivers high holding power that resists edge lift during frequent hand use and movement. The adhesive system is latex-free and hypo-allergenic for broad skin compatibility, supporting users

with sensitive skin.

The dressing core features a SupaSorb absorbent pad with a non-adherent contact layer to manage light exudate and reduce trauma on removal. The breathable, open-weave fabric backing is air-permeable to help reduce moisture build-up under the dressing, while the conforming fit maintains coverage across contoured areas. The robust fabric resists abrasion in demanding environments and maintains adhesion under pressure, helping the plaster stay put for longer wear time.

Designed for reliability across busy settings, the premium construction combines strong adhesion, breathable comfort and skin-friendly materials. The range is suitable for first aid rooms, cabinets and mobile kits where consistent performance and fast application matter.

- **Strong adhesion:** SupaBond technology holds fast and resists edge curl.
- **Skin compatible:** hypo-allergenic, latex-free adhesive suitable for sensitive skin.
- **Breathable backing:** air-permeable fabric supports comfort during wear.
- **Absorbent, non-stick pad:** manages light exudate and eases removal.
- **Conforming fit:** flexible fabric maintains coverage over digits and joints.

Size: Strip 7.5 cm × 1 m offers cut-to-length coverage for custom dressing of larger areas and hard-to-cover spots, combining strong adhesion with a breathable, conforming fabric for secure, comfortable wear.

Supplied as a single 7.5 cm × 1 m fabric dressing strip for quick kit top-ups and on-site custom cutting, helping reduce waste while maintaining strong, breathable and hypo-allergenic adhesion.

Contraindications and Precautions

Change dressing daily or more often according to the condition of the wound. As with all adhesive products apply and remove carefully from sensitive or fragile skin. Seek medical advice immediately for all serious wounds and burns. If redness or discomfort occurs, discontinue use and consult a physician.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
