minimising trauma on removal

Unmatched SupaBond™ Adhesive

Engineered exclusively for AeroPlast™, the SupaBond™ adhesive offers unrivaled adhesion that secures firmly across the application site, preventing lift-up or edge curling. SupaBond™ is latex-free and leaves no sticky residue, addressing common issues found with heavy-duty fabric plasters.

Superior SupaSorb™ Wound Pad The SupaSorb™ wound pad is designed for optimal wound management, effectively absorbing blood and exudates into its internal pockets. This super-absorbent pad reduces the frequency of dressing changes, protecting the wound and keeping it clean and comfortable. The non-adherent film layer minimizes pain and trauma during dressing changes.

Heavy-Duty Fabric Backing

Constructed with conforming and air-permeable heavy-duty fabric, the AEROPLAST™ Premium Fabric dressing is perfect for demanding applications, such as in the manufacturing industry. Its superior adhesion and flexibility ensure the bandage stays in place and conforms to body contours, maintaining wound cleanliness and comfort under the toughest conditions.

The Large patch 7.5cm x 5cm premium fabric bandage is designed for small to medium sized wounds. Offering a durable protective layer to create a moist healing environment.

Available as a box of 10

Contraindications and Precautions

Change dressing daily or more often according to the condition of the wound. As with all adhesive products apply and remove carefully from sensitive or fragile skin. Seek medical advice immediately for all serious wounds and burns. If redness or discomfort occurs, discontinue use and consult a physician.

This product is not a substitute for direct medical attention from a healthcare practitioner.
