Warranty Period (Months)	12

PRODUCT DESCRIPTION

The AEROPLAST Transparent range is a cutting-edge solution for wound care, designed to offer both aesthetic appeal and functional excellence. These transparent adhesive plasters are crafted to blend seamlessly with any skin tone, providing a discreet yet highly effective barrier against water and contaminants. The waterproof film ensures that wounds remain dry and protected, making these plasters ideal for individuals who engage in activities involving water exposure, such as swimming or showering. Engineered to bend, stretch, and conform to the body's natural contours, these plasters guarantee freedom of movement and comfort throughout the day. The SupaSorb™ wound pad is a standout feature, offering superior wound management by efficiently absorbing exudates into its

embossed pockets. This reduces the need for frequent dressing changes, minimizing the risk of further injury and ensuring that the wound site remains clean and comfortable. The non-adherent film of the SupaSorb™ pad also reduces pain and trauma during dressing changes, making it ideal for sensitive skin. Additionally, the SupaBond™ adhesive provides unrivalled adhesion, ensuring that the plaster stays securely in place, preventing lift-up or edge curling, even in challenging conditions. This adhesive is hypoallergenic and latex-free, making it suitable for those with sensitive skin. The comprehensive range of sizes and shapes, including specialized fingertip and knuckle dressings, ensures that there is a suitable option for every application. Whether it's a small cut or a larger wound, AEROPLAST Transparent plasters provide reliable protection and comfort. It is important to change the dressing daily or more frequently, depending on the wound's condition. As with all adhesive products, they should be applied and removed carefully, especially on sensitive or fragile skin. In case of serious wounds or burns, medical advice should be sought immediately. If any redness or discomfort occurs, discontinue use and consult a physician. While these plasters offer excellent wound protection, they are not a substitute for direct medical attention from a healthcare practitioner.

Size – Assorted Dressings: a convenient selection of clear, waterproof shapes that conform to fingers, knuckles, and other areas, delivering strong adhesion and discreet coverage for everyday first aid.

Supplied in a **box of 100** to support bulk replenishment for workplaces and households, reducing interruptions and keeping first aid kits ready.

Contraindications and Precautions

Change dressing daily or more often according to the condition of the wound. As with all adhesive products apply and remove carefully from sensitive or fragile skin. Seek medical advice immediately for all serious wounds and burns. If redness or discomfort occurs, discontinue use and consult a physician.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
