

ADDITIONAL INFORMATION

Weight	0.08 kg
Dimensions	7 × 8 × 6.5 cm
Carton Qty	50
Pricing Unit	Box/100
Size	3.7cm
Min Order Qty	1
ARTG ID	236945
GMDN Code	32857
Medical Device Class	Class 1
UNSPSC Code	42142712
Tax Schedule	Taxable
Item Length	3.7
Item Measurement Unit	cm
Is Medical Device	Yes
Is Serialized Item	No
Is Dangerous Good	No
Shelf Life (Months)	60
Warranty Period (Months)	12

PRODUCT DESCRIPTION

AEROPROBE Splinter Probes are single-use instruments designed to assist with locating and exposing superficial foreign bodies in skin so they can be removed with control. The compact 3.7 cm length provides a pencil-like hold that feels steady in hand for focused work on fingers, hands and feet across everyday first aid situations. The slim profile supports careful manoeuvring in tight spaces, helping

responders work precisely where visibility is limited.

The fine, tapered micro-tip is shaped to explore and gently lift the splinter tip for precise grasping with forceps or tweezers. Purpose-built for one-time use, each probe supports good hygiene in shared environments and helps reduce the risk of cross-contamination between users in workplaces, clinics, schools and community settings. Hygienic presentation enables quick, point-of-use access from first aid kits and treatment rooms so a clean instrument is always on hand when time and comfort matter.

Built for dependable performance, the instrument's control-focused length and precise tip make small mishaps simpler to manage. The format aligns with common first aid techniques for superficial splinter care performed by trained personnel, complementing the use of cleansing wipes, tweezers and protective gloves. From well-stocked workplace cabinets to home and travel kits, AEROPROBE helps keep minor incidents uncomplicated, so users can return to tasks with minimal interruption.

- **Precision micro-tip:** designed to help expose and lift splinters for accurate removal.
- **Single-use hygiene:** intended for one procedure to support clean, safe practice.
- **Control-focused length:** 3.7 cm handle provides confident, stable handling.
- **Hygienic presentation:** ready for point-of-use access in kits and treatment rooms.
- **Clear first aid purpose:** complements standard techniques for minor splinters.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
