PRODUCT DESCRIPTION

AeroShield Nitrile Finger Cots are meticulously designed to provide superior protection and comfort for various first aid and medical applications. These high-quality finger cots are crafted from durable nitrile, offering exceptional flexibility and puncture resistance, making them an ideal choice for professionals who demand reliability and performance. The nitrile material ensures a snug fit while maintaining comfort, allowing for extended use without irritation. Available in a variety of sizes, they cater to diverse needs, ensuring a perfect fit for every user. The ambidextrous and anatomically shaped design enhances user comfort, facilitating ease of use for both left and right-handed individuals. Powder-free, these finger cots deliver optimal grip in both wet and dry conditions, ensuring precision and control during delicate tasks. The vibrant blue colour enhances visibility, making it easy to detect any splits or tears, thereby maintaining safety standards. Pre-rolled for convenience, they are quick and easy to apply, saving valuable time in critical situations. Additionally, their anti-static properties make them suitable for use in environments sensitive to static electricity. AeroShield Nitrile Finger Cots are an indispensable component of any first aid kit, ensuring both safety and efficiency in every application, from medical examinations to electronic handling.

The AeroShield Nitrile Finger Cots in Medium size offer a perfect fit for those requiring reliable protection and comfort. Designed for first aid and medical applications, these finger cots provide exceptional flexibility and puncture resistance. The medium size ensures a snug fit while maintaining comfort, allowing for extended use without irritation. Ideal for professionals who demand reliability and performance.

The AeroShield Nitrile Finger Cots Box/50 is perfect for those needing a bulk supply of medium-sized finger cots. This pack provides 50
