PRODUCT DESCRIPTION

The Poly AED Angle Bracket Sign is a crucial tool for emergency preparedness, ensuring that an Automated External Defibrillator (AED) can be located swiftly when needed. Crafted from durable die-cut plastic, this sign features a clever folding design that transforms into an angled display, perfect for enhancing visibility in corridors or other areas where a flat sign would be less effective. Its clear, concise, and professional appearance is designed to provide essential information quickly and efficiently.

Key Features:

- **Visibility:** Angled design allows visibility from multiple directions, ideal for installation in high traffic areas.
- **Durability:** Made with sturdy poly material, suitable for both indoor and outdoor use, and resistant to various weather conditions.
- **Ease of Use:** Delivered flat with pre-creased lines for simple folding and mounting, facilitating quick setup.
- **Compact Size:** Each display face measures 225mm x 225mm, making it conspicuous yet unobtrusive.

Technical Specifications:

- **Material:** Poly plastic
- **Dimensions per Face:** 225mm x 225mm
- **Installation:** Can be drilled for permanent mounting on walls or other surfaces
- **Configuration:** Foldable for easy transportation and storage

This sign not only guides individuals to life-saving equipment but also incorporates a design that is both practical and easy to install, ensuring that the AED is accessible during emergencies.
