## PRODUCT DESCRIPTION

AEROSWAB Applicator is a dependable cotton-tip applicator range designed for everyday care in clinics, workplaces, schools, and home first aid. A soft, premium cotton tip pairs with a rigid wooden or bamboo stick to support controlled placement of ointments and solutions, gentle cleansing around dressings, and precise swabbing of small areas. The balanced construction delivers absorbency with a smooth, lint-minimising touch so users can work neatly and confidently during routine procedures and first aid tasks.

Materials are selected for consistency and feel. High-grade cotton conforms to skin contours for accurate application while the sturdy stick offers steady handling and pressure control when precision matters. AEROSWAB Applicator is supplied non-sterile for general topical use, making it a practical choice for first aid rooms and practice environments where sterile devices are not required. The

single-use design promotes hygienic turnover between tasks and helps keep workflows tidy and efficient across busy settings.

The range covers different lengths and end types to match technique and visibility requirements, from single-ended control to double-ended convenience. Clear handling supports good hygiene practice, and compatibility with common antiseptics and saline makes integration straightforward alongside wound dressings, cleansing wipes, and tapes. Whether preparing skin, placing antiseptic, or cleaning around a dressing, AEROSWAB Applicator delivers reliable, fuss-free performance that fits easily into kits, cabinets, and training setups.

- **Premium cotton tip:** consistent absorbency for neat application.
- **Rigid stick:** steady control for accurate placement and swabbing.
- **Non-sterile presentation:** suitable for general topical procedures.
- **Single-use design:** supports hygienic practice and quick changeovers.

**Type: 7.5 cm Bamboo Double End** offers compact reach with two tips ready for quick changeovers. The rigid bamboo stick aids steady control while the soft cotton heads support neat application and careful cleansing.

Packaged in a **bag of 100** for efficient restocking and tidy storage in kits and cabinets, supporting quick single-use turnover during busy shifts and everyday first aid.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.

Double End Applicator
