## PRODUCT DESCRIPTION

AEROSWAB Non-Sterile White Gauze Swab is a dependable general-purpose gauze designed for wound cleansing, preparation and absorption in first aid and clinical settings. Made from 100% cotton, it delivers the classic soft hand-feel and open-weave texture caregivers expect from quality gauze, helping to lift debris while managing blood and exudate. The 8-ply construction provides body and cushioning without compromising flexibility, making it suitable for cleaning around irregular contours and delicate skin.

This hospital-grade gauze is non-sterile and intended for single use. The balanced weave supports fluid uptake while remaining easy to handle for swabbing, padding and gentle packing. Consistent fibre quality and square cut edges assist with reliable presentation and quick selection during treatment. The bright white colour aids visibility of soils and exudate so changeovers can be assessed at a glance. Latex-free materials support use across diverse patient groups.

## AEROSWAB NON-STERILE WHITE GAUZE SWAB 10 X 10CM (8PLY) PACK/100

**AGS100** 

Trusted across first aid rooms, healthcare facilities and workplace kits, AEROSWAB provides a practical, cost-effective choice for routine wound care tasks including cleansing prior to dressing, absorbing residual moisture, and providing a soft interface beneath secondary dressings.

- **100% cotton:** soft, absorbent gauze for thorough wound cleansing and preparation.
- 8-ply construction: dependable body for swabbing, padding and light packing.
- Non-sterile and single-use: ideal for routine first aid and general clinical care.
- Hospital-grade quality: consistent performance for everyday wound care tasks.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
