

ADDITIONAL INFORMATION

Weight	0.0375 kg
Dimensions	5 × 5 × 8.5 cm
Carton Qty	80
Pricing Unit	Pack/100
Size	5cm x 5cm
Min Order Qty	1
ARTG ID	236938
GMDN Code	11315
Medical Device Class	Class 1
UNSPSC Code	42311512
Tax Schedule	Taxable
Item Length	5
Item Width	5
Item Height	5
Item Measurement Unit	cm
Is Medical Device	Yes
Is Serialized Item	No
Is Dangerous Good	No
Shelf Life (Months)	60
Warranty Period (Months)	12

PRODUCT DESCRIPTION

AEROSWAB Non-Sterile White Gauze Swab is a dependable cotton gauze designed for cleansing, preparation and absorption across everyday first aid and clinical care. Made from 100% cotton with an open, soft weave, it helps lift debris during cleansing while wicking blood and exudate away from the site. The multi-ply build gives the swab body and cushioning without stiffness, so it conforms comfortably around contours and delicate skin while remaining easy to fold and hold in gloved hands.

This hospital-grade gauze is non-sterile and intended for single use. Used dry it provides gentle mechanical action for routine wiping; when moistened it supports rapid fluid uptake and controlled release to assist irrigation and preparation before a secondary dressing is applied. Bright white fibres improve visibility of soils so changeovers can be assessed at a glance, supporting clear clinical judgement in busy environments. Latex-free composition broadens suitability for diverse users and reduces concerns around sensitivity during frequent handling.

The square-cut format handles reliably for swabbing, padding and light packing of minor wounds. In first aid rooms, healthcare facilities and workplace kits, AEROSWAB provides a practical, cost-effective choice for routine wound care tasks such as cleansing prior to dressing, absorbing residual moisture after washing, protecting the site while dressings are changed, and providing a soft interface beneath tapes and bandages. Consistent fibre quality and an easy-to-grip texture support repeatable technique for experienced practitioners and family carers alike.

Trusted in home and workplace kits, clinics and training settings, the gauze's balance of softness, absorbency and manageability makes it a versatile staple. Keep it on hand for everyday incidents, from minor cuts to dressing refreshes, where clear preparation and comfortable coverage are required. Its non-sterile, single-use format fits scheduled changeovers and routine care where a sterile field is not needed, helping maintain good hygiene practice and workflow efficiency.

- **100% cotton:** soft, absorbent gauze that supports thorough wound cleansing and preparation.
- **Multi-ply construction:** dependable body for swabbing, padding and light packing without excess bulk.
- **Non-sterile, single-use:** ideal for routine first aid and general clinical care where sterility is not required.
- **Latex-free and white:** broad suitability with easy visual assessment during changeovers.
- **Open, conformable weave:** handles well in gloves and contours comfortably around delicate areas.

The **Size: 5 x 5 cm** square format offers compact coverage that is easy to fold and position, making it well suited for cleansing and padding smaller areas while maintaining comfortable conformity.

Supplied in a **pack of 100** gauze swabs, this option supports convenient stocking for first aid kits, workplace cabinets and clinic trolleys, helping ensure a ready supply for routine cleansing and dressing changes.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
