## PRODUCT DESCRIPTION

AEROSWAB Sterile White Gauze Swab is a soft, 100% cotton gauze square designed for dependable absorbency when cleaning, blotting and cushioning minor wounds in first aid and clinical settings. The balanced open-weave texture supports effective wiping while remaining gentle on skin for comfortable care across everyday scenarios. The crisp white colour enhances visibility, making it easy to assess soil removal and progress as you cleanse. Low-lint performance helps maintain a tidy field during dressing changes and supports good hygiene practice at home, in workplaces and in clinical environments.

# AEROSWAB STERILE WHITE GAUZE SWAB 7.5 X 7.5CM (PACKS OF 3) BOX/25

AGS753S

Sterile processing provides assurance for contact with clean wounds and procedural use. The cotton gauze readily takes up saline and antiseptic solutions to support wound preparation, light packing and protection of surrounding skin beneath secondary dressings and fixation tapes. The pliable fabric conforms smoothly to curves and contours for controlled pressure where it's needed, and folds neatly to build cushioning under tapes and bandages. Lightweight and easy to handle with tweezers or gloved hands, it integrates seamlessly into wound-care routines from initial clean-up through to dressing application.

Trusted in healthcare facilities, first aid kits and workplace cabinets, AEROSWAB delivers straightforward selection across common sizes and consistent results day after day. The combination of cotton's natural softness and reliable fluid uptake helps keep care efficient and comfortable, whether you are blotting light exudate, cleansing with saline, or adding a protective pad under fixation tape. Choose AEROSWAB for practical, hygienic wound preparation that supports tidy procedures and confident care.

- **100% cotton gauze:** soft, skin-friendly absorbency for cleaning and cushioning.
- **Sterile assurance:** suitable for contact with clean wounds and procedural use.
- **High fluid uptake:** readily absorbs saline and light exudate to support care.
- **Conforming comfort:** pliable fabric fits curves for precise placement.
- **White for visibility:** aids quick visual checks during wound care.

The **Size: 7.5 x 7.5 cm** option provides broader coverage for hands, wrists and medium treatment sites while remaining easy to handle with tweezers or gloved fingers.

Supplied in a **pack of 3** to support single-use hygiene and quick replenishment in kits, providing enough swabs for cleanse, blot and cover steps during a typical minor-wound dressing.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
