## PRODUCT DESCRIPTION

AEROSWAB Sterile White Non-Woven Swabs provide dependable, hygienic support for wound cleansing, fluid absorption and general dressing preparation. The soft, non-woven construction is designed for contact with skin and surrounding tissue, helping maintain a clean field when attending to cuts, abrasions, surgical sites and other minor procedures. Each swab measures 10 cm x 10 cm, offering generous coverage that is easy to position with tweezers in clinical and first aid settings.

The non-woven material is highly absorbent when moistened, assisting with gentle cleansing prior to dressing application. The square

# AEROSWAB STERILE WHITE NON-WOVEN SWAB 10 X 10CM (PACKS OF 3) BOX/25

ANS103S

format sits flat for clear visibility of the site, and the smooth surface is comfortable against the skin during application and removal.

For efficient replenishment, the swabs are supplied sterile in protective pouches in packs of three. This practical pack configuration suits first aid kits, workplace cabinets and clinical rooms, making it simple to keep appropriate quantities on hand while maintaining sterility until point of use.

- **Sterile non-woven design:** supports hygienic wound cleansing and preparation.
- **10 cm x 10 cm coverage:** easy placement with ample surface area.
- **Soft and absorbent:** comfortable on skin and effective for fluid uptake.
- **Single-use reassurance:** clear symbols assist correct product selection.

Supplied as a **pack of three 10 cm x 10 cm** sterile non-woven pads, ideal for everyday wound cleansing and dressing preparation. The soft material is comfortable on skin and absorbent when moistened for efficient site prep.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
