PRODUCT DESCRIPTION

AEROWIPE Alcohol-Free Cleansing Wipes are designed for gentle, effective skin hygiene in first aid kits, workplaces, clinical environments and everyday routines. Each single-use wipe is made from strong non-woven fabric and pre-soaked with an aqueous solution containing **1% cetrimide BP W/V** and **0.02% chlorhexidine BP W/V**. This formulation supports dependable cleansing of localised areas of skin before applying dressings or devices, and as part of routine first aid care.

The alcohol-free formulation helps avoid the sting, strong odour and fumes often associated with alcohol-based wipes, making it a

AW8000

comfortable option for frequent use and for people who prefer a gentler wipe. The non-woven carrier is durable and low-lint, helping the wipe glide smoothly and maintain a tidy clean-up. The wipe size is generous for efficient coverage of small areas without needing multiple wipes for a single task.

Individually wrapped sachets help keep each wipe hygienic until needed, making it easy to carry in a bag, glove box or kit, and simple to restock first aid supplies. AEROWIPE Alcohol-Free Cleansing Wipes are non-sterile, intended for external use, and suited to quick skin cleansing when soap and water are not readily available.

- **Alcohol-free comfort:** helps avoid sting and strong odour.
- **Dual formulation:** 1% cetrimide and 0.02% chlorhexidine for effective cleansing.
- **Strong non-woven wipe:** durable, low-lint carrier for controlled wipe-downs.
- **Individually wrapped:** hygienic, portable and convenient for kits and travel.
- **Single-use and non-sterile:** practical format for routine first aid hygiene.

Quantity: Box/2000 individually wrapped wipes suited to bulk replenishment and easy add-on ordering, while still providing the same alcohol-free cleansing performance.

Supplied as a **Box of 2000**, ideal for bulk replenishment in busy first aid, workplace, or clinical settings while keeping single-use hygiene simple with individually wrapped wipes.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
