## PRODUCT DESCRIPTION

AeroWipe Alcohol Surface Wipes provide a convenient way to clean and disinfect hard, non-porous surfaces in medical, workplace, industrial, and home environments. Each non-woven wipe is saturated with 75% v/v isopropyl alcohol BP, delivering reliable alcohol-based disinfection for surfaces that have been pre-cleaned to remove visible dirt and grime. The wipes are supplied in a soft pouch with a flip-top lid and inner seal that helps reduce drying between uses, making them suitable for frequent cleaning routines throughout the day.

The non-woven carrier is designed to be extra strong, so the wipe holds together during use without shredding or tearing easily. This supports efficient cleaning of flat surfaces such as stainless steel benches, trolley tops, and equipment housings. The generous wipe size allows users to cover a practical area with each cloth, helping to streamline regular wipe-downs in busy settings such as clinics, day surgeries, laboratories, workshops, offices, and shared facilities.

The formulation uses pharmaceutical grade isopropyl alcohol, making these wipes well suited to situations where dependable, alcohol-based hard surface disinfection is required. They are particularly useful where liquid disinfectants or sprays may be less convenient,

AW7600

such as mobile service work, vehicles, or compact treatment rooms. The portable pouch is easy to store in cleaning stations, procedure rooms, or maintenance trolleys, supporting quick access whenever surfaces need to be wiped and left to air dry.

By combining strong non-woven material with a consistent alcohol load, AeroWipe Alcohol Surface Wipes help users maintain high standards of surface hygiene with minimal setup. They are ideal for environments that handle equipment, worktops, and high-touch surfaces that must be cleaned and disinfected quickly between tasks or users.

- **75% v/v isopropyl alcohol:** delivers effective hard surface disinfection after pre-cleaning.
- **Strong non-woven wipe:** resists tearing for confident, thorough wiping.
- **Portable pouch format:** easy to keep in treatment rooms, vehicles, and workstations.
- **Ideal for hard, non-porous surfaces:** suitable for benches, trolleys, and equipment housings.
- **Ready to use:** pre-saturated wipes support quick, consistent cleaning and disinfection.

This hard surface wipe option features a 75% v/v isopropyl alcohol formulation in an extra strong non-woven cloth, providing dependable alcohol-based disinfection for pre-cleaned hard, non-porous surfaces in clinical, industrial, and home environments.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
