

ADDITIONAL INFORMATION

Weight	0.065 kg
Dimensions	12 × 5 × 14 cm
Carton Qty	20
Pricing Unit	Box/10
Size	6 x 8cm
Min Order Qty	1
ARTG ID	407191
GMDN Code	58301
Medical Device Class	Class 2a
Tax Schedule	Non-Taxable
Item Length	8
Item Width	6
Item Measurement Unit	cm
Is Serialized Item	No
Is Dangerous Good	No

PRODUCT DESCRIPTION

Postoperative care is critical to ensure optimal wound healing, prevent infection, and minimise scarring. Dressings play a crucial role in facilitating this process. AeroFilmPlus™ Silicone Postoperative Dressings have been specifically designed for acute wounds including surgical wounds, cuts, and abrasions. Designed to promote an optimal healing environment.

Features:

1. **Gentle On Skin:** The gentle silicone adhesive is perfect for fragile and sensitive skin, reducing the risk of any further trauma or complications during the wound healing process.

2. **Exudate Management:** Effective management of wound exudate prevents pooling, which can be a precursor to infections. It ensures that the wound remains moist but not overly wet, providing an optimal environment for healing.
3. **Highly Absorbent:** AeroFilmPlus™ dressings showcase excellent absorption, ensuring the wound remains uncontaminated and free from excessive dampness that can impede healing.
4. **Waterproof:** A waterproof layer that protects from external moisture and contaminants, reducing the possibility of infection.
5. **Flexible:** Ensures that the dressing adapts to body contours and movements, providing comfort and preventing dressing displacement.

Safety Considerations:

For external use only. Always read the label and follow the directions for use.
