

ADDITIONAL INFORMATION

Weight	0.08 kg
Dimensions	2.5 × 14.6 × 16.5 cm
Carton Qty	20
Pricing Unit	Box/10
Size	10 x 10cm
Min Order Qty	1
ARTG ID	406568
GMDN Code	46855
Medical Device Class	Class 2b
Tax Schedule	Non-Taxable
Item Length	10
Item Width	10
Item Measurement Unit	cm
Is Serialized Item	No
Is Dangerous Good	No
Barcode (GTIN/EAN/UPC)	9341394031241

PRODUCT DESCRIPTION

AeroWound Silicone Wound Contact Dressing boast impressive technologies for less pain contact layer. Using silicone adhesion, minimal trauma can be achieved during dressing changes. Engineered with the patient's comfort in mind, this dressing promotes a better healing environment.

Features:

- 1. Non-Adherent Surface:** Made with medical-grade silicone, our dressing minimises the risk of adhesion to the wound, ensuring

pain-free dressing changes.

2. **Gentle on Skin:** Ideal for those with sensitive or fragile skin, the silicone material reduces the potential for skin irritation or allergic reactions.
3. **Translucent Design:** The see-through quality of the dressing allows for easy monitoring of the wound without the need for frequent dressing removal.
4. **Flexible and Conformable:** Adapts to body contours, ensuring a snug fit while allowing the patient to move freely.
5. **Breathable:** Promotes a moist wound environment while allowing excess moisture to evaporate, thus reducing the risk of maceration.
6. **Protective Barrier:** Acts as a barrier to external contaminants, reducing the risk of infection.
7. **Versatile:** Suitable for a variety of wound types, including post-operative wounds, minor burns, abrasions, and lacerations.

Silicon Wound Contact Layer 10 x 10cm
