PRODUCT DESCRIPTION

The AEROWOUND Wound Dressings are a general purpose wound dressing for use in preventing infection and controlling bleeding. Available in sizes to suit wounds from finger injuries to large wounds.

Unique Finger Dressing

• The AEROWOUND Finger dressing is unique in the industry for it ability to treat finger wounds too large to cover with an adhesive dressing. This unique product combines a 4.5cm square low adherent and absorbent pad, with a wrapping leader and secure adhesive tab to protect the wound.

AEROWOUND FINGER DRESSING ENV/3

AWF03

Highly Absorbent

• Highly absorbent wound pad controls bleeding and absorbs wound exudates

Low adherent

• Special low adherent coating minimizes wound trauma associated with changing dressings

Individually packed and sterile

• Dressings are available individually on demand in an easy tear wrapper and sterile for wound cleanliness.

Ease of application

• The wound pad is attached to a wrapping leader of gauze bandage making the dressing simple to apply, yet comfortable and secure for all general wound dressing.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
