## PRODUCT DESCRIPTION

AeroWound Super Absorbent Wound Dressing are designed for managing moderate to heavily exuding wounds. Engineered with cutting-edge technology, to provide high fluid absorption and retention. A reliable option for managing highly exuding wounds such as venous leg ulcers, diabetic foot ulcers or pressure ulcers. An advanced wound care solution for facilitating a faster and safer healing process.

Features:

- Ultra-High Absorbency:** With its state-of-the-art absorbent core, it effectively manages fluid, reducing the risk of maceration and ensuring a conducive healing environment.
- Moisture Retention:** Maintains the optimal level of moisture at the wound interface, promoting faster healing and minimizing pain.
- Breathable Barrier:** Its outer layer is permeable to vapors, preventing moisture buildup, yet impermeable to bacteria and

contaminants.

4. **Conformable:** Conforms easily to body contours, ensuring patient comfort during wear.
