## PRODUCT DESCRIPTION

AEROFORM Elastic Tubular Bandage delivers flexible compression and soft-tissue support in a seamless, easy-to-apply tube. The elasticised knit conforms smoothly to limbs and joints without the need for clips or tapes, providing even, circumferential pressure that helps reduce swelling and protects dressings during movement. It can be trimmed to the required length and layered to adjust

firmness, making it a practical choice for clinical environments, workplaces, sports settings, and home first aid.

The breathable, latex-free construction promotes skin comfort during extended wear while maintaining consistent support through activity. A smooth, low-friction surface slides easily beneath clothing or protective gear to minimise catching and disturbance, helping applications stay neat and secure during daily tasks.

Common applications include securing primary dressings, providing even compression during rehabilitation, and offering extra reassurance for weak or aching joints. The tubular design enables rapid application and a tidy, professional finish when time and consistency matter.

- **Elasticised tubular design:** delivers even, circumferential compression for secure support.
- **Cut-to-length convenience:** trim and layer to tailor firmness and coverage.
- **Breathable, latex-free knit:** promotes comfort while you move.
- **Non-sterile format:** ideal for routine support and dressing retention.

The **Size F Large Legs (10 cm width)** option provides generous coverage for calves and knees, offering comfortable, even compression that follows the contours of larger limbs while helping dressings stay tidy during movement.

Supplied in a **1 metre length**, this bandage can be quickly cut to the exact coverage required and folded back for additional firmness when needed, helping keep applications tidy and efficient for everyday limb support and dressing retention.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
