

## ADDITIONAL INFORMATION

<b>Weight</b>	0.42 kg
<b>Dimensions</b>	16 × 16.2 × 10.3 cm
<b>Carton Qty</b>	16
<b>Pricing Unit</b>	Box/500
<b>Size</b>	7.5 x 2.5cm
<b>Min Order Qty</b>	4
<b>ARTG ID</b>	159198
<b>GMDN Code</b>	44990
<b>Medical Device Class</b>	Class 1s
<b>UNSPSC Code</b>	42311546
<b>Tax Schedule</b>	Taxable
<b>Item Length</b>	7.5
<b>Item Width</b>	2.5
<b>Item Measurement Unit</b>	cm
<b>Is Medical Device</b>	Yes
<b>Is Serialized Item</b>	No
<b>Is Dangerous Good</b>	No
<b>Shelf Life (Months)</b>	60

## PRODUCT DESCRIPTION

The AEROPLAST Plastic range of adhesive plasters and bandages is designed to offer superior wound care solutions for everyday needs. These washproof and hypoallergenic bandages are crafted to provide comfort and protection for minor wounds, making them ideal for general applications. The innovative SupaSorb Wound Pad technology ensures excellent wound management by efficiently absorbing exudates, thereby reducing the frequency of dressing changes. This feature keeps the wound clean and comfortable, while

the non-adherent film minimizes pain and trauma during dressing changes.

Equipped with the exclusive SupaBond adhesive, these bandages guarantee secure and lasting adhesion, preventing lift-up or edge curling, even in challenging conditions. The AEROPLAST Plastic bandages are made from materials that are both air permeable and conforming, allowing them to bend, stretch, and adapt to various shapes and forms. This ensures that the skin and wound can breathe as they heal, promoting a more comfortable recovery process.

These bandages are latex-free, making them suitable for individuals with latex sensitivities. Manufactured to the highest standards, AEROPLAST Plastic bandages meet the needs of both medical professionals and everyday users. Whether you're a healthcare provider, a first aid trainer, or a family looking for reliable wound care solutions, the AEROPLAST Plastic range offers the protection and comfort you need. Trust in the quality and performance of these bandages to keep wounds protected and promote healing.

The **Size: X-Wide Strip 7.5 x 2.5cm** option provides increased width and coverage, making it suitable for larger cuts and grazes or areas that benefit from extra stability. The wider design still delivers the same washproof, breathable plastic backing, SupaSorb absorbent pad, and hypoallergenic, latex free SupaBond adhesive for strong yet skin-friendly adhesion on hard-to-cover spots.

This configuration provides a **Quantity: 500 bandages per box**, ideal for high-traffic environments such as clinics, workplaces, and large households. The larger count supports bulk stocking of first aid stations and reduces the frequency of replenishment while still delivering the same strong adhesion, absorbent pad performance, and washproof, conforming plastic backing as the rest of the range.

#### Contraindications and Precautions

Change dressing daily or more often according to the condition of the wound. As with all adhesive products apply and remove carefully from sensitive or fragile skin. Seek medical advice immediately for all serious wounds and burns. If redness or discomfort occurs, discontinue use and consult a physician.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
