

ADDITIONAL INFORMATION

Weight	0.18 kg
Dimensions	6.5 × 3.5 × 2 cm
Carton Qty	20
Pricing Unit	Box/50
Size	6mm x 100mm
Min Order Qty	1
ARTG ID	265114
GMDN Code	32207
Medical Device Class	Class 2a
UNSPSC Code	42311546
Tax Schedule	Taxable
Item Length	10
Item Width	0.6
Item Measurement Unit	cm
Is Medical Device	Yes
Is Serialized Item	No
Is Dangerous Good	No

PRODUCT DESCRIPTION

AEROPLAST Wound Closure Strips are sterile, hospital-grade skin closures designed to approximate the edges of superficial wounds quickly and gently. The thin, low-profile format sits flat on the skin to support everyday movement while maintaining consistent, edge-to-edge contact. A conforming, air-permeable backing flexes with body contours on hands, fingers, and joints to help reduce lift in high-motion areas. Each strip provides tensile support across the wound line so the site remains undisturbed through routine activity and clinical aftercare.

AEROPLAST WOUND CLOSURE STRIPS 6 X 100MM 10 STRIPS/CARD BOX/50

APWC1061

The adhesive formulation balances holding power with skin compatibility. It is hypo-allergenic and latex-free for use on sensitive skin, and removes cleanly from intact skin at change time. Breathable materials support comfort during wear and allow visual checks of the site when needed. Ethylene oxide sterilisation and hospital-grade construction make the range suitable for first aid kits, clinics, workplaces, and training rooms where reliable, ready-to-use closures are essential.

These closures are intended to approximate wound edges on clean, dry skin for small cuts, minor lacerations, and post-procedure support as directed. Their conforming fit, strong adhesion, and gentle removal make them a practical choice for household use, workplace safety programs, and educational simulations. Lightweight backing and slim edges enable discreet wear under clothing or gloves without bulk, while tensile reinforcement helps sustain approximation between scheduled checks. The combination of secure hold and skin-friendly design delivers dependable performance from application to removal.

- **Strong adhesion:** reliable hold to approximate wound edges.
- **Conforming & breathable:** flexible, air-permeable backing for comfort.
- **Hypo-allergenic & latex-free:** suitable for sensitive skin.
- **Sterile, hospital grade:** ethylene oxide sterilised and ready to use.
- **Low profile:** slim design supports movement and discreet wear.

Size: 6 mm x 100 mm with 10 strips per card provides generous length for small lacerations and neat approximation across longer minor cuts, while remaining low profile for comfortable wear on hands and joints.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
