

ADDITIONAL INFORMATION

Weight	0.06 kg
Dimensions	4.2 × 8 × 8.1 cm
Carton Qty	100
Pricing Unit	Box/100
Size	X-Large
Min Order Qty	1
ARTG ID	238354
GMDN Code	11719
Medical Device Class	Class 1
UNSPSC Code	42132202
Tax Schedule	Taxable
Is Medical Device	Yes
Is Serialized Item	No
Is Dangerous Good	No

PRODUCT DESCRIPTION

AeroShield Nitrile Finger Cots provide dependable fingertip protection for clinical, workplace and first aid environments where hygiene and precision matter. Made from durable nitrile, they combine flexibility with puncture resistance to create a comfortable barrier that supports extended wear. An ambidextrous, anatomically shaped design helps each cot fit naturally on either hand, streamlining application during busy shifts and helping maintain dexterity for delicate tasks.

The powder-free surface delivers a confident wet and dry grip, aiding accurate handling of instruments, components and dressings. The high-visibility blue colour makes damage easier to spot, supporting quick replacement when required. Anti-static properties broaden use to electronics handling and other static-sensitive settings. Each cot is pre-rolled to speed application when time is critical, from first aid response to routine medical examinations, laboratory work and food preparation.

Engineered for reliability and comfort, AeroShield Nitrile Finger Cots are a practical addition to professional kits and workplace safety

AEROSHIELD X-LARGE NITRILE FINGER COTS BOX/100

ASN100-XL

programs, helping maintain clean touchpoints while allowing precise control. Their consistent performance supports confident use across healthcare, light industrial, hospitality and education settings.

- **Powder-free wet/dry grip:** secure handling and procedural control.
- **Durable nitrile barrier:** flexible protection with puncture resistance.
- **Blue for visibility:** easier split detection during use.
- **Pre-rolled and ambidextrous:** quick, comfortable application on either hand.
- **Anti-static:** suitable for electronics and static-sensitive environments.

The **Size: X-Large** option provides a comfortable fit for larger fingers while maintaining dexterity. The ambidextrous, anatomically shaped profile supports quick application, and the blue colour aids visibility during precision tasks.

Supplied in a quantity of 100, this pack supports extended replenishment cycles for busy teams. The larger count reduces changeovers and helps ensure cots are always on hand for clinical tasks, electronics work and first aid response.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
