<b>Shelf Life (Months)</b>	60

## PRODUCT DESCRIPTION

AEROPLAST Transparent is a clear, discreet plaster range engineered for dependable wound coverage in busy, high-contact settings. The transparent film blends with diverse skin tones for a tidy, low-profile finish while forming a waterproof barrier against splashes and routine hand washing. A flexible construction bends, stretches, and conforms to body contours so wearers can continue tasks at work, school, or home with confidence.

SupaBond™ adhesive delivers high holding power with an edge-to-edge seal that resists lift and curling, even on fingers and knuckles. The formulation is latex-free and hypo-allergenic for broad skin compatibility, supporting comfortable wear and clean removal after long shifts. Adhesion strength is balanced to maintain secure fixation without leaving sticky residue, helping the dressing stay neat through movement, gloves, and repeated hand hygiene.

The SupaSorb™ wound pad efficiently manages exudate by drawing fluid into embossed pockets. A non-adherent contact layer reduces sticking on removal, helping minimise disruption to the site and supporting low-pain dressing changes. The clear backing assists quick visual checks without taking the plaster off, so users can assess when a change is required while maintaining protection from dirt and moisture.

Every plaster is sterile and individually wrapped until first use. The film's conforming fit and low-profile edges help maintain continuous coverage across hands and joints for reliable performance during daily tasks. From hospitality and healthcare to logistics and education, this range provides professional-looking coverage that stays put and looks discreet, making it a smart choice for first aid kits in workplaces, clinics, schools, and active households.

Designed for comfort as well as performance, AEROPLAST Transparent combines strong adhesion, skin-friendly materials, and a cushiony non-stick pad to protect small cuts, grazes, and minor wounds. The waterproof, transparent film keeps the dressing in place during routine washing and light activity while the breathable construction supports all-day wear. Choose it when a clean appearance, robust holding power, and gentle removal are all essential.

- **Waterproof transparency:** blends with skin for discreet protection that resists splashes and routine hand washing.
- **SupaBond™ strong hold:** secure adhesion helps prevent lift and curling on fingers and knuckles.
- **Hypo-allergenic & latex-free:** skin-friendly adhesion supports comfortable, extended wear.
- **SupaSorb™ absorbent pad:** channels fluids to help keep the site cleaner and supports low-pain removal.
- **Flexible, conforming film:** moves with hands and joints for reliable coverage in hard-to-cover spots.

The **Size: Spot Dressings 2.25 x 2.25 cm** option is ideal for focused coverage of small cuts and punctures, offering a discreet, transparent film with strong adhesion that conforms comfortably to curved areas such as hands and forearms.

This option provides a **quantity of 50** dressings in each box, supporting efficient restocking of household, workplace, and vehicle first aid kits while keeping storage space compact and convenient.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
