PRODUCT DESCRIPTION

The Waismed developed advanced Intraosseous (IO) devices, designed for a rapid and accurate access to the bloodstream wherever traditional intravascular access is not possible for medical treatment.

Based on an innovative, patented injection system, Waismed's IO devices provide rapid, safe and easy intravascular access through the bone marrow.

Connection to standard infusion equipment is simple for administering fluids, medications and blood products.

- Auto Reloader
- Adult and paediatric training injectors
- Safety clips
- Practice block
- Carry case

This product is available through selected distributors of AERO HEALTHCARE only.
