

ADDITIONAL INFORMATION

Weight	0.04 kg
Dimensions	8 × 2 × 10 cm
Carton Qty	100
Pricing Unit	Bag/100
Min Order Qty	1
ARTG ID	N/A
GMDN Code	N/A
UNSPSC Code	42291806
Tax Schedule	Taxable
Is Serialized Item	No
Is Dangerous Good	No

PRODUCT DESCRIPTION

AEROSUPPLIES Bandage Clips provide a simple, dependable way to secure crepe and conforming bandages once wrapped. The compact clip design keeps the end neatly anchored without bulky knots or additional tape, supporting a professional finish in everyday care. They are well suited to workplace first aid cabinets, clinical trolleys, school sick bays and field kits where fast, tidy fixation matters.

A sturdy metal frame joined by a short elastic bridge grips the bandage weave to hold dressings in place during movement. The low-profile shape sits close to the wrap to help reduce catching on clothing and allows quick application or adjustment for comfort. The metal-and-elastic construction delivers reliable grip on common elastic wraps used for support, compression and dressing retention. This product contains natural rubber latex.

Designed to integrate smoothly with popular wrap ranges including AEROCREPE and AEROFORM, these clips make bandaging more efficient across first aid, sports training and general clinical use. The consistent hold helps maintain even pressure along the bandage, supporting neat presentation and minimising rework during busy shifts or on the sideline.

Built for convenience and value, the clips arrive ready for widespread deployment in kits and cabinets, helping standardise accessories across organisations. From warehouses and hospitality to schools and community sport, they offer a practical finishing step to keep bandages secure.

- **Secure, quick fixation:** anchors the bandage tail without knots.
- **Low-profile metal and elastic design:** helps reduce snagging.
- **Compatible with crepe and conforming bandages:** versatile across settings.
- **Latex content notice:** contains natural rubber latex.

Supplied in a bag of **100** elastic-metal clips to streamline kit building and replenishment for workplaces, schools and sports programs, ensuring a fast, tidy finish to crepe and conforming bandages when needed.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
