PRODUCT DESCRIPTION

Brayden Baby Pro resembles the Brayden Baby Advanced in appearance and shares many consumable components. Provides unique intuitive real-time ventilation feedback using lights and sound.

The Brayden Baby Pro also facilitates comprehensive objective/numeric information of infant CPR performance when connected via Bluetooth with the [Brayden Online iOS app for iPad](#).

Its flexibility in use with the Brayden Online product range and added features for scenario use makes it the ideal choice for training infant CPR in both hospital and pre-hospital settings.
