PRODUCT DESCRIPTION

The AeroKit Commander 6 Series Plastic Rugged First Aid Kit is designed to give workplaces and busy households a dependable response option for everyday incidents and unexpected emergencies. The robust plastic case helps protect the contents from dust, splashes, and knocks, while the bright colour and clear labelling make it easy to locate when every second counts. With internal organisation suited to a broad mix of dressings, bandages, instruments, wipes, and other first aid items, it supports rapid selection so users can focus on care rather than searching for supplies.

This kit is suited to a wide range of settings, including offices, warehouses, factories, workshops, schools, and larger homes. The compact footprint and 43 cm x 14.5 cm x 30.5 cm dimensions allow it to sit neatly on a shelf or benchtop, while still offering extensive capacity for first aid essentials. The hard outer case helps prevent crushing during transport, making it a practical option for work vehicles, mobile service teams, and community groups that require a kit that can tolerate regular handling.

Inside, the Commander 6 Series layout is arranged to support clear visibility of contents and simple restocking. Sections can be grouped for wound care, burns care, eye care, bandaging, and accessories, helping users quickly reach for the right product type. This structure makes it easier to keep the kit compliant with workplace standards and internal safety policies, while also giving families confidence that suitable items are on hand for home, hobby, and outdoor activities.

The strong handle and secure latches make the kit easy to carry to the scene of an incident. Once opened, the case presents contents in a tidy and accessible format so more than 1 person can access items at the same time if needed. The durable plastic construction is well suited to environments where moisture, dirt, or frequent cleaning are common, supporting long term use as part of a safety program or household emergency plan.

- **Rugged plastic case:** helps protect supplies from dust, moisture, and everyday knocks.
- **Workplace ready design:** suitable for sites that follow recognised workplace first aid guidelines.
- **Generous internal capacity:** accommodates a comprehensive selection of first aid essentials.
- **High visibility colour:** easy to spot in busy work areas, vehicles, and homes.
- **Portable format:** strong handle and compact dimensions support grab-and-go use.

This configuration features a rugged plastic case style that is suited to workplaces, vehicles, and busy homes where impact and moisture resistance are important.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
