PRODUCT DESCRIPTION

DAD'S 2 Series Plastic Waterproof First Aid Kit is designed as a practical, family friendly solution for dealing with everyday mishaps at home, in the car, or out and about. The compact, hard plastic case helps protect first aid supplies from dust and light moisture while keeping everything together in one easy to find place. With its bright, dad themed design and carry handle, it is simple to spot in a cupboard, garage, shed, ute, or boat and just as handy in an office or workshop.

The neat outer case has a low profile that fits comfortably on a shelf, in a glove box, or in a small storage nook so it is always close at hand when it is needed. The internal layout is designed to hold a mix of everyday first aid essentials to help manage minor cuts, scrapes, stings, and other small injuries that happen around the home, at weekend sport, or during family adventures. Clear front styling makes it easy for all family members to recognise this as the go to first aid kit, encouraging quick access when someone needs basic care.

This kit range is part of a broader first aid system that supports households and workplaces to stay prepared without taking up much space. The durable case construction is suited to busy family environments, helping contents stay protected in garages, sheds, utes, and on boats where conditions can be dusty or exposed. Smooth edges and an integrated handle make it comfortable to carry from room to room or to pack into a backpack when travelling.

In everyday use, this first aid kit gives confidence that essentials for treating minor injuries are stored in one organised place. It supports quick response to small accidents, helps keep supplies cleaner and easier to find, and makes a thoughtful gift for occasions such as birthdays or special days celebrating dads. The portable size and practical layout make it a smart addition to home, car, and workplace first aid arrangements.

- **Compact hard case:** fits easily in small spaces while keeping supplies together.
- **Weather resistant design:** helps protect contents from dust and splashes.
- **Portable carry handle:** simple to grab for home, car, shed, ute, or boat.
- **Family friendly styling:** encourages quick recognition as the household first aid kit.
- **Ideal for minor injuries:** supports everyday first aid needs in busy households.

Supplied as a single compact kit measuring approximately 21 cm by 7.5 cm by 13 cm, it fits neatly into cupboards, glove boxes, and small storage spaces while still holding a practical selection of first aid items for minor injuries.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
