## PRODUCT DESCRIPTION

The AeroKit Defender 3 Series Softpack Versatile First Aid Kit is designed to keep households, vehicles and recreational adventures prepared for everyday incidents. Housed in a compact soft case measuring 13 cm wide, 9 cm deep and 19.5 cm high, it fits easily into cupboards, car boots, work vehicles and caravans while still offering a comprehensive selection of first aid essentials. The reinforced fabric bag stands upright for quick access and zips fully open so contents can be seen and reached with minimal searching, helping

users respond calmly and efficiently when something goes wrong at home, on the road or outdoors.

This Defender 3 Series configuration is built as an all-round solution for home, vehicle and recreation use, supporting first aid needs for families, tradespeople and active travellers. The mix of dressings, bandages, wipes and accessories supports treatment of common injuries such as minor cuts, grazes, sprains and burns that occur around the house, at work, during sport or while camping. Clear internal organisation helps users quickly identify the right item, reducing time spent rummaging and helping maintain focus on the person who needs assistance.

The softpack construction provides a balance of durability and portability. The outer case is tough enough to cope with everyday knocks in vehicles and busy household environments, while remaining light enough to carry between rooms, into the backyard or from the car to the campsite. The shape and dimensions allow the kit to be stored upright on shelving or laid flat in drawers and under seats. Bright colouring and clear first aid graphics help the kit stand out so it can be found quickly in a hurry, which is especially important in shared homes, offices or vehicles where different people may need to locate it.

The Defender 3 Series Softpack Versatile First Aid Kit is suitable as a central first aid resource in small workplaces, home offices and recreational vehicles, and also works well as a secondary kit to complement larger wall-mounted stations. It provides reassurance that a thoughtfully assembled set of first aid products is always on hand, whether dealing with a scraped knee in the backyard, a minor cut in the kitchen, or a small injury on a weekend road trip.

- **Compact soft case:** portable design measuring 13 x 9 x 19.5 cm for easy storage in homes, vehicles and recreation gear.
- **Versatile everyday coverage:** supports treatment of common minor injuries at home, at work and during travel.
- **Organised layout:** internal arrangement helps users quickly find the items they need in an emergency.
- **Durable fabric construction:** reinforced bag stands up to regular handling in cars, caravans and busy households.
- **High visibility design:** clear first aid markings make the kit easy to identify when time matters.

Defender 3 Series Softpack Versatile First Aid Kit, a compact 13 x 9 x 19.5 cm case that is ideal for keeping a full set of first aid essentials in a single, easy to store pack.
