## PRODUCT DESCRIPTION

The DEFENDER 3 Series Plastic Neat First Aid Kit provides dependable everyday readiness in a compact, durable case sized 23 x 9 x 25 cm. Built for portability and quick access, it helps resellers serve homes, vehicles, and small workplaces that need an organised

solution for the rapid, initial treatment of injury. The robust plastic case is easy to identify at a glance and stores neatly on a shelf, in a cabinet, or in a car boot without taking up excess space.

The moulded carry handle and secure latches support fast grab-and-go response, while the clean interior layout keeps essential items visible and accessible so replenishment is straightforward. The kit format aligns with common consumer expectations for domestic and on-the-go use, making it a reliable addition to retail ranges and safety catalogues. Its bright, highly visible case helps reduce time to locate in an emergency.

For procurement teams, the product streamlines maintenance through a refill-friendly design and clear outer labelling. The structured format supports simple stock checks during site audits and field servicing. The case construction resists everyday knocks during transport and storage, preserving contents between call-outs. The form factor also supports placement in reception areas, staff rooms, and vehicle cabins where space is limited.

The compact dimensions make this kit a versatile choice for those who need a balanced option between size, portability, and coverage expectations.

- **Compact footprint:** 23 x 9 x 25 cm case fits shelves, glove boxes, and tight storage
- **Durable plastic case:** protects contents and withstands everyday transport
- **Highly visible design:** easy to identify quickly in homes, vehicles, and offices
- **Organised interior:** clear layout supports rapid access and fast restocking
- **Portable and secure:** carry handle and firm latches for grab-and-go response
- **Refill friendly:** simple to maintain with dedicated refill options

Presented in a compact **23 x 9 x 25 cm** plastic neat case with a moulded handle and secure latches, offering easy storage and grab-and-go portability for homes, vehicles, and small offices.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
