## PRODUCT DESCRIPTION

DEFENDER 3 Series First Aid Kit Refill is a ready-to-deploy replenishment pack for maintaining workplace, vehicle and site kits in a reliable, cost-efficient way. Built for routine restocking, it replaces commonly used items so kits remain prepared for cuts, scrapes, minor burns and everyday incidents. The refill-only format means no new case to purchase or store—simply top up and keep operations moving.

Each component is clearly labelled for quick selection during an incident and straightforward inventory checks after use. The assortment includes core wound care, bandaging and support items that suit busy environments such as warehouses, workshops, offices and mobile teams. Durable, professional-grade supplies help standardise kit contents across locations, simplifying compliance checks and making training easier to deliver.

The DEFENDER 3 Series platform is designed for practical deployment: items are packed to minimise rummaging, streamline audits and support rapid changeovers between jobs. This makes the refill a strong choice for distributors and facility managers who want

predictable replenishment, consistent quality and dependable availability without over-buying.

- **Refill-only convenience:** restock existing DEFENDER 3 Series kits without replacing cases.
- **Workplace-ready selection:** curated for common first aid needs in commercial and mobile settings.
- **Easy identification:** clearly labelled packs support fast response and quicker audits.
- **Cost-efficient replenishment:** replace what's needed to reduce waste and downtime.
- **Consistent quality:** professional-grade components suitable for everyday incidents.
- **Flexible deployment:** suitable for offices, workshops, vehicles and on-site teams.

Refill-only format makes it simple to restore DEFENDER 3 Series kits without purchasing a new case, reducing waste and keeping downtime low.

Supplied as a single refill pack for straightforward restocking of existing DEFENDER 3 Series kits—ideal for workplaces, vehicles and site teams seeking predictable maintenance.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
