PRODUCT DESCRIPTION

AEROWASH Drop Eyewash is a sterile 0.9% sodium chloride solution designed for quick, effective eye and wound irrigation when fast first aid response matters. The isotonic formulation gently assists in clearing and cleaning the ocular area and rinsing minor wounds, making it suitable for workplaces, healthcare settings, education environments, and mobile kits. The compact bottle is easy to handle under pressure and provides dependable irrigation for initial response prior to further assessment.

The bottle features an integrated eye cup that helps position and direct flow comfortably over the eye. A secure twist-top enables rapid activation while maintaining sterility until use. AEROWASH Drop Eyewash is engineered to work seamlessly with the DROP Eyewash Station AWDS01, supporting a tidy, ready-to-use setup that keeps refills organised and highly visible at the point of need. Clear pictorial guidance on the bottle helps prompt correct use in urgent situations.

Chosen across a wide range of industries, AEROWASH supports best-practice first aid with dependable performance and practical details that make a difference when every second counts. Whether topping up a wall-mounted station or equipping a vehicle or site kit, it delivers the reliability, compatibility, and ease of use expected from a professional irrigation solution.

- Sterile 0.9% saline: isotonic solution assists in clearing and cleaning eyes and wounds.
- Integrated eye cup: helps direct flow for more comfortable, effective flushing.

AEROWASH DROP EYEWASH BOTTLE 500ML

AWDREF500
