**PRODUCT DESCRIPTION**

Fire Blankets are ideal for settings where small Class F fires are a risk such as in kitchens or wherever oils or fats are exposed to potential ignition. They can also be used if a person's clothing has caught fire.

A Fire Blanket cuts off a fire's supply of oxygen, smothering it either permanently or until more effective fire-fighting equipment can be employed.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.

Large Fire Blanket
