

ADDITIONAL INFORMATION

Weight	0.08 kg
Dimensions	19.5 × 6.6 × 2.9 cm
Carton Qty	100
Pricing Unit	Unit/1
Size	15cm x 18cm
Min Order Qty	1
ARTG ID	201258
GMDN Code	201258
Medical Device Class	Class 1s
UNSPSC	42311545
Tax Schedule	Taxable
Item Length	18
Item Width	15
Item Measurement Unit	cm
Is Serialized Item	No
Is Dangerous Good	No
Barcode (GTIN/EAN/UPC)	FCP-02

PRODUCT DESCRIPTION

The FirstCare Military & Civilian Wound Dressing raises haemorrhage control to the next level, consolidating numerous pieces of treatment equipment into a single, effective and easily applied unit.

First Care products provides innovative first-response medical products which save lives by improving field haemorrhage control, and also yield significant savings in time and resources. The company's unique, combat and clinically proven direct pressure Emergency Bandage has been adopted by military and civilian organisations worldwide.

Controlling Haemorrhage Faster:

- Innovative combat-proven direct pressure bandage
- Trauma bandage and secondary dressing all in one
- Quick, easy and effective application; and self application, even one-handed

Saving Lives With A Direct Pressure System:

According to US Government statistics, blood loss resulting from trauma leads directly to the deaths of 50,000 civilians in the United States alone. Now, the Emergency Bandage raises haemorrhage control to the next level, consolidating numerous pieces of treatment into a single, effective and easily applied unit.

Key Applications

- 'Standard' in major military organisations worldwide
- Already in use by Police, SWAT, Fire and EMS worldwide
- Quickly stanches haemorrhaging from injuries caused by traffic accidents, workplace accidents, home injuries, gunshot, knife and other assault wounds

Features

- Integral pressure applicator exerts immediate direct pressure to the wound
- Secondary sterile dressing maintains pad and pressure firmly in place and lowers risk of further infection
- Built in closure bar; no pins, clips, tape, velcro or knots
- Non adherent pad eliminates pain and wound re-opening upon removal
- Quick and easy application and self application.

Benefits

- Rapid control of bleeding stabilizes patients and saves lives
- Unique life cycle cost administration, logistical and training savings compared to existing multiple-bandage treatment

solutions - no need to order, stock, supply and train on numerous pieces of equipment

- Significantly lowers in-hospital per-patient treatment costs
