PRODUCT DESCRIPTION

The Large Red Softpack Trauma First Aid Kit, designed for individuals, and professionals in various workplace settings. This comprehensive kit ensures compliance with workplace safety regulations while providing essential medical care during emergencies. The bag is a vibrant red colour and has reflective strips, the kit offers high visibility in any situation. The softpack design and leather base combine portability and durability, making it ideal for construction sites, vehicles, and professional settings. Specifically tailored for workplace use, our Trauma First Aid Kit serves various industries:

- Construction Sites: Comply with safety regulations and address trauma-related injuries common in construction environments.
- Manufacturing Facilities: Equip your facility with a comprehensive solution for cuts, burns, fractures, and more.
- Schools and Educational Institutions: Be prepared for accidents, ensuring student and staff well-being.
- Sports and Fitness Centers: Support athletes and fitness enthusiasts, addressing potential trauma-related injuries during activities.

LARGE RED SOFTPACK TRAUMA FIRST AID KIT 49 X 30 X 28.5CM

FAKTRM

This kit encompasses a curated selection of medical supplies and equipment to handle critical situations effectively. Its organization enables quick access to necessary items, while durable construction ensures protection and security. The kit offers peace of mind and preparedness in one portable package.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
