

ADDITIONAL INFORMATION

Weight	0.16 kg
Dimensions	16 × 7 × 4 cm
Carton Qty	12
Pricing Unit	Each
Min Order Qty	1
UNSPSC	42142620
Tax Schedule	Taxable
Is Serialized Item	No
Is Dangerous Good	No

PRODUCT DESCRIPTION

The NIO+ Adult provides safe, rapid intraosseous access in the most extreme environments under extreme conditions.

The NIO+ Adult is a reliable, automatic, single-use intraosseous device, robustly manufactured with a reinforced polymer core, which resists elevated thermal temperatures, enabling the device to operate in extreme environments. Light weight, at only 140grams the device can be stored within a small medical pouch, making it a practical solution for emergency situations.

- Compact and durable packaging
- Proven durability in extreme temperatures
- 5-year room temperature and 3-year extreme temperature shelf life
- Vascular access in 10 seconds
- Needle Gauge 15G

- Most cost-effective IO solution
- Lightweight approx. 140g (packaged)
- Dual safety features
- Semi-automatic device
- No exposed needle
- Single-use device
- Fully assembled

Product Specifications

	139 mm (5.47") L
Dimensions	57 mm (2.24") W
	27 .33 mm (1.06") H
Weight	90g (140g packaged)
Packaging	Packed individually
Needle Gauge	15G
Needle Effective Length	42mm (1.65in)
Needle Penetration Depth	25mm (0.98in)
	1.The cap must be rotated prior to deployment.
Safety Mechanism	2. Device activation requires the user simultaneously press the device to the insertion site and pull its trigger.
	3 years up to 50°C or
Shelf Life*	5 years at room temperature
