PRODUCT DESCRIPTION

The AeroKit Operator 5 Series Plastic Neat First Aid Kit is designed to provide rapid, organised support when injuries occur in busy environments. Housed in a compact, durable plastic case, it keeps essentials together and protected so they are ready to go when needed. The neat, briefcase-style design with integrated handle is easy to grab in an emergency and simple to carry between locations, whether that is between work areas, vehicles, or different rooms in a home or office.

This first aid kit is intended for the rapid and initial treatment of workplace injuries, helping users respond quickly while waiting for professional medical assistance if required. Inside, a broad mix of wound care items, bandages, dressings and support products is laid out for efficient selection so users can quickly find what they need without unnecessary delay. The layout supports clear visibility of key items which is especially valuable in high pressure situations.

The Operator 5 Series Plastic Neat First Aid Kit is suited to low to moderate risk workplaces, warehouses, factories, workshops and other industrial or commercial settings. It also serves as a dependable option for home garages, hobby spaces and household first aid cupboards where a more comprehensive kit is desired. The sturdy case protects contents from dust and minor impacts, and its bright colour makes it easy to spot when time is critical. Compact external dimensions of 34.5 cm length, 11 cm width and 33 cm height allow convenient placement on shelves, in cupboards, or in vehicles without taking up excessive space.

This kit is part of a wider range of Operator Series first aid solutions, allowing consistency across multiple sites and facilities. Employers and safety managers can standardise on one style of kit, making it easier for staff to recognise and use the equipment wherever they are working. The robust yet lightweight plastic construction suits mobile workers, trades, site vehicles and service technicians who need dependable first aid equipment that travels with them.

- **Comprehensive workplace focused kit:** supports rapid treatment of common injuries in industrial, commercial and office environments.
- **Durable plastic neat case:** strong yet lightweight design protects contents while remaining easy to carry.
- **Compact dimensions:** 34.5 cm x 11 cm x 33 cm sizing fits neatly on shelves, in cupboards and in vehicles.
- **Highly visible design:** bright case colour helps users quickly locate the kit in busy spaces or low light conditions.
- **Ideal for work and home:** suitable for workplaces, fleet vehicles, workshops and households seeking a well equipped first aid solution.

This plastic neat case configuration combines a rigid, durable shell with a slim, briefcase-style profile that is easy to store and comfortable to carry between work areas, vehicles and rooms at home.

This configuration is supplied as 1 complete unit, giving users a fully stocked first aid kit in a compact plastic neat case that fits easily on shelves, in cupboards or in vehicles while remaining simple to transport when incidents occur.

This product is not a substitute for direct medical attention from a healthcare practitioner. Always read the label and follow the directions for use.
